TECHNICAL SPECIFICATIONS

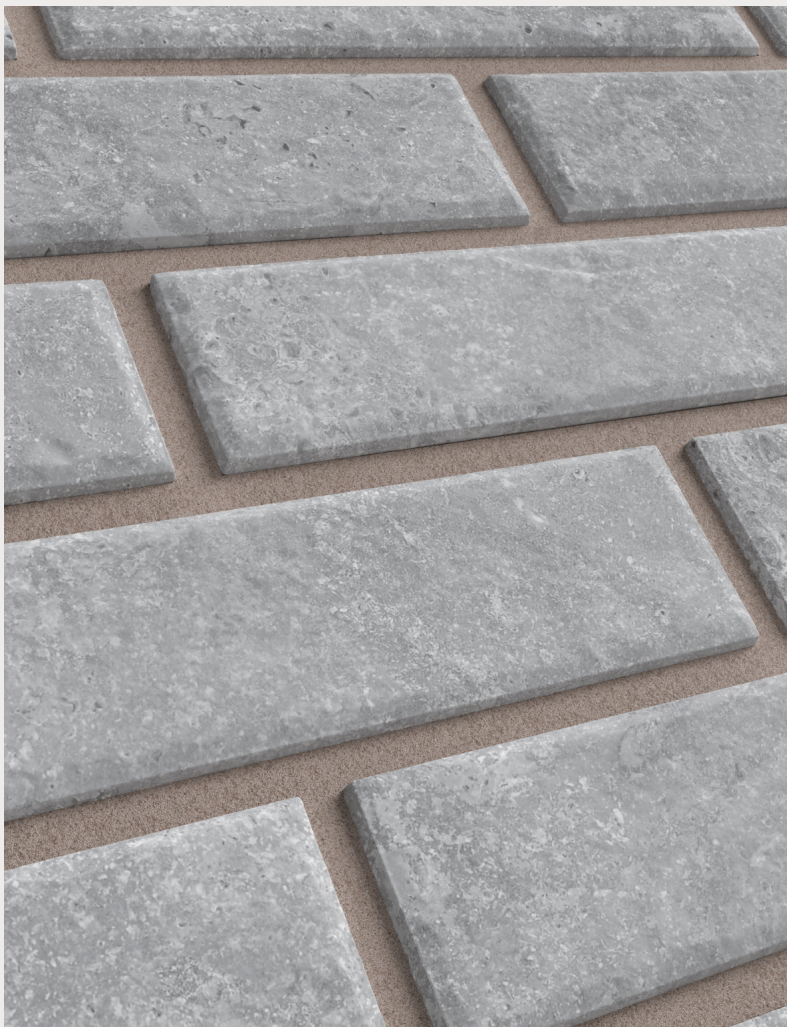

Standard Panel Size	1,162 x 616 mm
Panel Thickness	75 mm
Thickness (PU Core)	60 mm
Panel Weight	30 kg/m^2
Thermal Conductivity	0.023W/(m*°C)
Fire Rating	B-s1, d0
Water Absorption	≤ 1%
Compressive Strength	≥ 300kPa
Operating Temperature	-60°C to +60°C

EXCLUSIVE CEMENT GRAY

A light, neutral cement grey with chalky highlights and a naturally weathered mineral texture. Its concrete-inspired character creates clean, contemporary façades with a subtle industrial edge.

EXCLUSIVE CEMENT DARK

A deeper concrete grey enriched with charcoal shading, mineral wear and distinctive linear markings. Its raw, architectural texture brings depth and an expressive industrial character to contemporary façades.

EXCLUSIVE HARD STONE

A light ivory and stone-beige base enriched with dense earthy brown mineral speckling and irregular weathered patterns. Its high natural variation creates the distinctive character of aged stone with exceptional visual depth.

EXCLUSIVE METAL DARK

A dramatic charcoal-black base animated by irregular rust, copper and burnt-orange patina. Inspired by naturally oxidised metal, it creates a powerful architectural surface with an unmistakably premium industrial character.

EXCLUSIVE MIDNIGHT

A deep charcoal and anthracite palette layered with smoky grey and pale mineral patina. Its rich tonal variation creates a sophisticated dark façade with dramatic depth and a distinctly premium presence.

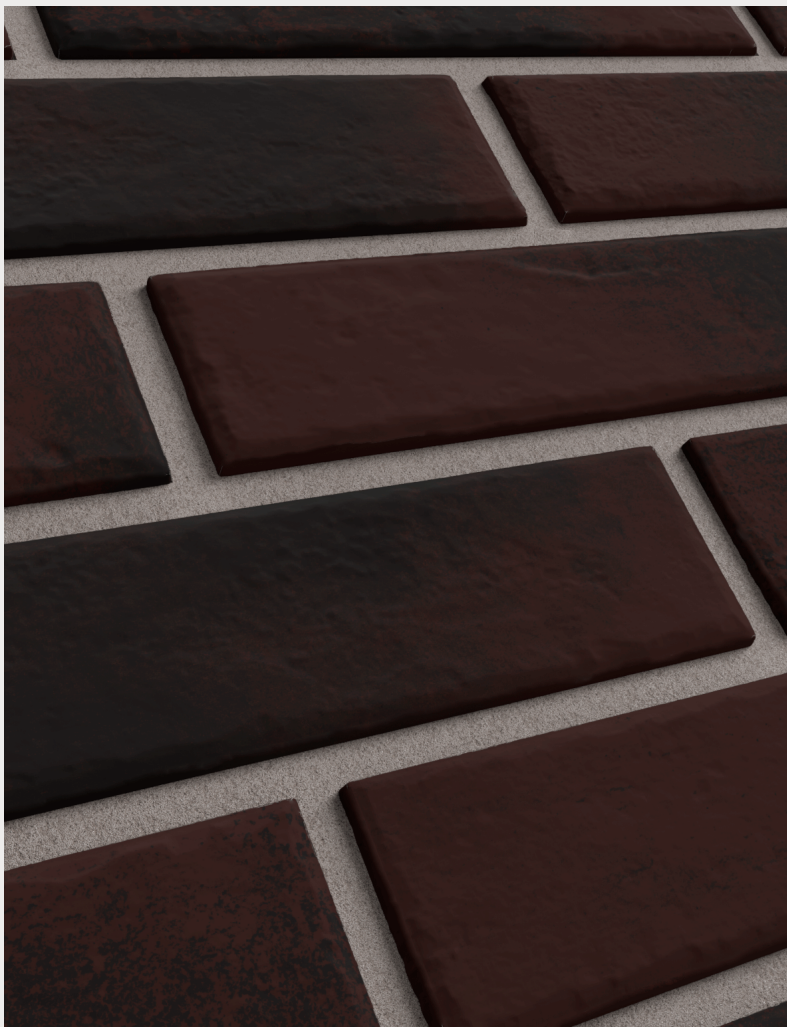

EXCLUSIVE RED WINE

A deep burgundy and oxblood tone enriched with dark charcoal patina. Elegant, intense and highly distinctive, it gives façades a luxurious sense of depth while maintaining the character of aged masonry.
